Assessment Ratio 44.2% In Monroe

HARRISBURG (AP)—The State Tax Equalization Board Tuesday issued a county-by-county breakdown of 1959 school district market valuations certified to the Department of Public Instruction.

(The 1959 market valuation figure certified for Monroe County was \$145,499,100. The assessed valuation was \$64,318,395, or 44.2 percent of market value. Figures for the individual school districts were not available last night).

The annual market values, as determined by the board, are used by the department as one of the factors in distributing state school subsidies.

The department said, however, the amount of change cannot be determined until December when it receives reports from the districts on enrollments, the second major factor in the subsidy distribution formula.

No Reductions

A 1959 law guarantees that no school district will get less subsidy money because of the new valuations. The department said the increases will be determined by comparing the changes in the district's market valuation and enrollment with the state average.

Board Chairman John Bevec reported that the increase in the total valuation for the 2,277 school districts was less than 2 percent.

Bevec said a recent law restricted the board to consideration of properties going on and off the tax assessment rolls in determining the valuations for odd-numbered years.

41.5 Percent

The total market valuation certified by the board for 1959 was \$33,269,014,300. The assessed valuation reported to the board by county officials was \$13,810,800,843, or 41.5 percent.

The total market valuation for 1958 was \$32,707,388,300 and the total assessed valuations reported by the counties was \$13,284,170,606 or 40.6 percent.

The 1959 market valuations will be used in the formula to reimburse school districts for expenses of the school year 1960-61 and will be payable in the school year 1961-62.

\$1,000 Loan Authorized By Council

BANGOR — Borough Council granted a \$1,000 loan to the Bangor Sewer Authority at its regular session last night.

According to Walter Warrick, sewer chairman, the additional funds are necessary to care for the current expenses of the authority.

Chief Burgess Quintus LaBar informed council that in the last six months a total of \$443 had been received in parking meter revenue.

At the request of Chief of Police Glenwood T. Lewis, council granted him a stipend of \$75 to attend the police chiefs' convention in Philadelphia the first week in August.

Chester Kauffman, third ward councilman, informed the council that by the end of the current Bangor park season, the debt on the train amusement would be reduced to \$2000.

Charles Chamberlain reported that the Street Commission had used 315 tons of patching material on borough streets as of July 1.

Council authorized repayment of a \$45,000 loan to the first National Bank, and granted Borough secretary William J. Sleeman authorization to borrow up to \$25,000 if and when the Borough would need it.

Unofficial reports showed Bangor's population was reduced by 294 persons to 5766 from the 1950 census.

PIPE WHICH will carry sewage from East Stroudsburg to new treatment works is pictured here. New plant, now under construction, is located just beyond right-of-way shown in background.

Two State Aides Here For Program

TWO TOP STATE officials will accompany Dr. Maurice K. Goddard, Pennsylvania secretary of forests and waters, during his trip to the Stroudsburgs on Friday for flood control ground-breaking ceremonies.

The two state representatives are Clifford H. McConnell, chief of flood control and Bernard D. Murphy, chief forests and waters engineer.

Charles R. Bensinger, Stroudsburg attorney and president of the Water Resources Association of the Delaware River Basin, will introduce Dr. Goddard and other dignitaries.

Friday Afternoon

The ceremonies will take place on Friday at 3 p.m., along the Brodheads Creek near the East Stroudsburg Playground. They had originally been scheduled for yesterday but were postponed to latter part of the week.

It was reported that Dr. Goddard and several other state and local officials were unable to make the Tuesday meeting because of previous commitments. The ground-breaking will initiate the construction of \$1,473,593 flood control project on the Brodheads, McMichaels and Sambo Creeks in the area.

Many county and local civil organization and business firms will be in attendance during the ceremonies. The Citizens Gas Co., which was among the first to act on the right-of-way requests, will be represented by several company officials. The public will also be invited to view the festivities.

The flood project is the largest local flood protection work ever undertaken in Pennsylvania. It will be built by the Elmhurst Contracting Co., of Corona, N.Y., which submitted the lowest bid of the 13 received on the construction.

Government Donates Building

PHILADELPHIA (AP) — The federal government disclosed Tuesday it has donated the six-story Lippincott Building in West Philadelphia to the University of Pennsylvania.

The building, with a market value of \$380,000, was classified as surplus. It had been unused since the Navy closed it in June, 1959.

U.S. Protests Seizure Of Refineries

Cuban Sugar Imports Halted

WASHINGTON (AP)—The United States Tuesday denounced Cuba's seizure of two U. S.-owned oil refineries as unfair and unlawful and called on Prime Minister Fidel Castro to reverse his action.

This was announced shortly after the U. S. Agriculture Department suspended all imports of Cuban sugar to the United States, clearing the road for President Eisenhower to slash Cuba's sugar quota under a bill Congress passed Sunday.

Eisenhower conferred with Secretary of Agriculture Ezra Taft Benson about signing the new sugar bill and about the exercise of the President's power under it.

Economic Aggression

A formal, stiffly worded note

delivered in Havana by U. S. Ambassador Philip W. Bonsal cited seizure of the oil refineries as proof that Castro is waging "relentless economic aggression" against free world nations.

The protest said the two U. S. firms had operated in Cuba as law-abiding companies for more than 50 years and have made valuable contributions to Cuba's economic growth.

In urging Castro to change his mind, the United States said it hoped he would "permit the refineries to operate under fair and reasonable conditions."

But U. S. officials held little hope that Castro would do anything but hold on to the U. S.-owned properties once valued at nearly a billion dollars.

The seized Texaco and Esso Standard refineries are estimated as investments worth \$48,300,000. These firms also had been forced to lend the Castro regime some 50 million dollars through restrictions.

The left-wing government took over the refineries and the British-Dutch Shell Oil Co. refinery after they refused to handle oil Cuba imported from the Soviet Union.

Attacks Seizure

The British protested the seizure of the Shell refinery just before the U. S. protest was delivered. Castro was called on to restore the Shell refinery to its Dutch and British owners.

The Agriculture Department's action was reported to have

thrown the sugar industry in Cuba into confusion. Exporters frantically checked their certificates of delivery to determine which cargoes were already cleared for shipment to the United States.

When the announcement was made here, many ships were loading sugar in Havana in an effort to beat a possible curb on exports to the United States.

The expected slash of Cuba's sugar quota would be the toughest U. S. action since the beard revolutionary came to power. Washington has responded to Castro's anti-American activities mainly with diplomatic protests and public statements, only to see the Havana regime move farther down the leftward path.

At the Capitol, Sen. Lyndon B.

Johnson (D-Tex) told a news conference "we can anticipate the possibility of a Communist submarine base being built on Cuba."

He mentioned Cuba in his formal announcement that he is a candidate for the Democratic presidential nomination. Johnson included the Castro situation in a list of troubles he said Communism is raising for the next U. S. president.

U. S. diplomats said they know of no plans for a Red sub base anywhere in the Caribbean but did not rule out the possibility.

The State Department noted with interest but without comment the resignation of Jose Miro Cordona as Cuban ambassador to the United States.

Tuesday he took refuge in the

Argentine embassy in Havana, declaring he could not go along with the Castro government's ideology.

At the White House, press secretary James C. Hagerty announced that Eisenhower would not act before Wednesday on the bill passed Sunday by Congress permitting him to slash Cuba's sugar shipments.

The Agriculture Department said there are 740,000 tons left unshipped of Cuba's 1960 quota of 3,119,655 tons. Cuba was reported to be rushing about 75,000 tons to the United States to get in ahead of a possible heavy quota cut.

Some authorities have said Eisenhower may cut the Cuban quota by 700,000 tons, thus virtually wiping out what's left of this year's quota.

Sen. Johnson Announces Candidacy

Rival Camps Not Moved By Johnson

LOS ANGELES (AP)—Democrats hopped into official preliminaries to a scrapping national convention Tuesday with barely a ripple of excitement at Sen. Lyndon B. Johnson's announcement of his presidential candidacy.

Johnson rosters quickly claimed there now will be a groundswell of new support for the Texas senator from the ranks of delegates who were unwilling to commit themselves until Johnson did.

Rival camps said Johnson's formal pronouncement of his candidacy in Washington merely confirmed what everybody already knew and therefore changed nothing.

Medical Plan Fight

The Democratic convention kickoff comes next Monday. But the 100-plus member platform committee began hearings Tuesday.

It didn't take long for members of the committee to become enveloped in a row with Dr. Edward R. Annis, speaking for the American Medical Assn., over medical help for the elderly.

Annis urged the Democrats not to endorse a program financed through the Social Security program and its taxes. Committee members muttered about threats when Annis said an endorsement of such a method would make it hard for doctors to vote Democratic. Annis said he himself is a Democrat from Florida.

While Sen. Johnson avoided mentioning the subject again, National Democratic Chairman Paul M. Butler took occasion to deny he has done any rigging of the convention in favor of Sen. John F. Kennedy of Massachusetts.

In an appearance before the platform committee Butler disputed charges made by former President Harry S. Truman, and endorsed by Johnson, that Butler has shown partiality toward Kennedy.

Thieves Clean Out 2 Safes

PHILADELPHIA (AP) — Two safes containing \$10,000 in cash were cleaned out early Tuesday by thieves who broke into the basement office of the Union News Co. in the Pennsylvania Railroad's 30th Street Station.

The money had been placed in the safes Monday night by Andrew Kraulos, 29, the night manager.

Candidate Selected

LEWISTOWN, Pa. (AP) — State Sen. J. Irving Whalley of Somerset Tuesday night was named on the seventh ballot as the Republican candidate to fill the vacancy in the 18th Congressional District.

Goldfine Starts Sentence On Charges Of Contempt

BOSTON (AP) — Bernard Goldfine, 69, gift-giving millionaire textile tycoon, went to federal prison Tuesday for contempt of court in a tax case.

Although he once boasted of friends in high political office, Goldfine was handcuffed to a convicted bank embezzler as he was led away to serve 90 days in the federal correctional institution at Danbury, Conn.

His secretary and business associate, Miss Mildred Papernman, 42, was hustled off to a county jail in Cambridge Mass., to serve 10 days on a similar contempt charge.

U. S. Dist. Judge Charles E. Wyanski Jr. sent them off to serve time after denying petitions by counsel and a personal appeal by Goldfine for 10 days or two weeks more of freedom.

The stocky, balding Goldfine accepted sentence calmly. Later he

smiled wanly and waved to newsmen as he left for Danbury.

Miss Papernman could not hide her emotions. Her eyes were red and damp when the order for her imprisonment was given.

Later, she wept openly in the courtroom as she shook hands with Goldfine before she was led away by a matron.

Goldfine asked Judge Wyanski if he could "get two weeks to finish some financial transactions, and business affairs."

Judge Wyanski denied the plea without comment.

This was Goldfine's second brush with a contempt citation. Last year a federal court in Washington imposed a one-year suspended sentence and fined Goldfine \$1,000 for contempt of Congress in refusing to answer 18 questions by a congressional committee.

The committee was investigating

Goldfine's private and business affairs after a reference was made in Boston federal court linking the industrialist with Sherman Adams, then President Eisenhower's chief aide.

Goldfine later told the congressional group that he had given a vicuna coat and other gifts to Adams. He denied any wrongdoing.

Adams later resigned as presidential assistant and denied, also, that the gifts bore any significance other than a gesture of personal friendship.

The Boston contempt charge resulted from a charge by Internal Revenue Service investigators that Goldfine and Miss Papernman failed to produce requested books and records before a court-set deadline.

The books of Goldfine's textile corporation later were produced and tax evasion indictments against both followed.

Farm Bureau Requests Dropping Of Controls

LOS ANGELES (AP) — Democratic convention preliminaries began Tuesday with platform hearings to hammer out 1960 campaign principles.

"This is really the opening gun in the battle destined to end with a glorious Democratic victory,"

said Philip B. Perlman of Baltimore, acting committee chairman.

Rep. Chester Bowles (D-Conn) will take over the gavel Wednesday.

The platform group which already has heard from some 600 spokesmen in regional hearings,

got some new advice Tuesday on foreign policy, education aid, accelerated economic growth, health care and civil rights.

Paul Butler, Democratic national chairman, said world peace and domestic human problems are the main issue.

He predicted the platform will set forth a clear stand on civil rights. This, he said, could cause some Southerners to bolt but he doubted it.

"The American people are going to know how we stand on the great national and international problems facing our country," Butler asserted.

The American Farm Bureau Federation called on the party to abandon long-time backing for federal crop controls and high farm price supports.

Some Democratic leaders hoped for a farm plank that would capitalize in November on a reported farmer revolt against Republican agriculture policies.

In Washington, Senate Democratic Leader Lyndon B. Johnson of Texas in formally announcing as a candidate for presidential nomination, said one task of the new national administration will be to distribute farm surpluses to needy persons abroad.

Increasing the level of farm income to the level of other American economic groups is another prime task for the next president, Johnson said.

Such presidential hopefuls as Sen. John F. Kennedy of Massachusetts and Stuart Symington of Missouri, along with Johnson, have come out for high price supports.

The American Medical Assn. appealed for party endorsement of a modest federal health care plan for the aged recently passed by the House of Representatives.

Dr. Edward Annis of Miami said any plan to extend health aid to all citizens 65 years or older through the social security system would be a big step toward state medicine.

A stronger government role in enforcing racial equality in education, voting and employment was voiced by a number of church organizations.

Motor Club Negotiations Continued

POCONO MANOR — Further negotiations looking forward to the establishment of a new and larger automobile club for Northeastern Pennsylvania were authorized last night by the board of governors of the Pocono Mountains Motor Club.

The action was taken upon the recommendation of a special committee which met with representatives of the Lackawanna Motor Club and discussed details of a possible merger of the two organizations into one club.

John M. Crandall, president of the Pocono Mountains Motor Club, said the enlarged club would cover eight counties and have a combined membership of nearly 40,000.

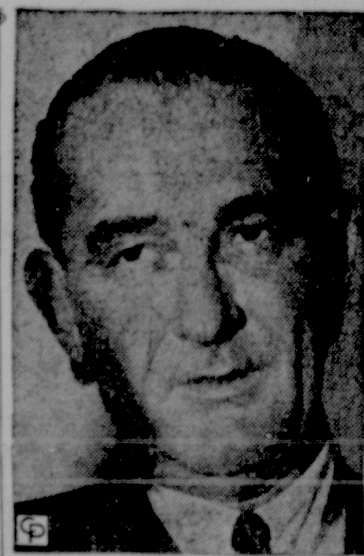

Members of the committee who met with Lackawanna group were Clifford Cramer, chairman; Dr. Thomas Larkin, Frank S. LaBar, R. LeRoy Dengler, M. F. Crowe, Gerald Posinger and Crandall.

The board also discussed the naming of a successor to Clement Heist, who resigned last month as secretary-manager of the club, but took no action. Six applicants have filed for the position.

Daniel G. Warner is chairman of the committee considering the applications. Other members are Amzi Altomose and Cramer.

The club expects to move to its new office on N. Ninth St. about the middle of this month.

M. E. Leffer, chairman of the building committee, reported that renovation of the building is almost completed and Warner, owner, said that construction of the large parking lot at the rear of the property is expected to be finished next week.

Sen. Lyndon B. Johnson

No Shortage Of Sugar Likely Soon

NEW YORK (AP)—Housewives shouldn't fear any sugar shortage from the dispute with the Cuban government, sugar trade experts say. They say there's plenty of sugar.

But some sugar men talk about "dislocations" which could develop if Cuban sugar imports are prohibited. Congress has given President Eisenhower power to cut Cuba's quota.

Sugar men think it might cost more to get sugar from countries other than Cuba in view of shipping distances.

American Sugar Refining Co., largest domestic refiner said "sugar supplies are adequate in the United States and the world and we see no shortage whatsoever." The company would not comment on prices.

The experts say stocks of sugar have been built up in this country; heavy import certifications have been made in the past few weeks; Cuba has shipped a very large part of her 1960 quota—and there is a huge supply throughout the world.

Johnson did not make any specific delegate claims of his own. He said merely his friends had told him he would have more than 300 votes on the first ballot and that his "chief opponent"—obviously Sen. John F. Kennedy—would have less than 200.

It will take 761 votes to win the nomination.

Jabs Kennedy

The Texan did not mention Kennedy by name at any point. But a number of his comments were clearly jabs aimed in the direction of the Massachusetts senator.

"Those who have engaged in active campaigns have missed hundreds of these (Senate) votes," he said. "This I could not do for my country or my party."

Johnson's prepared statement was written in a rather low and solemn key. It laid great stress on the serious world situation and the problems which will confront the next president.

Speaking of foreign affairs, Johnson said the question is not so much a need for a new policy as improvement in execution of the old policy.

"Some live wires" in that field, he said.

Johnson pictured himself as an experienced government official; one who had known "the presidency—and the men in it—intimately" since 1937.

He took what seemed a slam at Kennedy's recent intensive campaigning.

Not Only One

"Feeling as I do about the American presidency—about the awesome tasks before our next national leadership—I would not presume to tell my fellow Democrats that I am the only man they should consider for this job or to demand that any delegate vote for me," said Johnson.

"I am not going to go elbowing through 179 million Americans—pushing aside other senators, governors, congressmen—to shout, 'Look at me—and at nobody else.'"

"All the forces of evil in this world" will be poised for whatever weakness the next president may show, Johnson added. "Those forces will have no mercy for innocence, no gallantry toward inexperience, no patience toward errors."

Senate Chief Confident Of Nomination

WASHINGTON (AP) — Sen. Lyndon B. Johnson formally jumped into the battle for the Democratic presidential nomination Tuesday. He said he expects to be the party's choice in Los Angeles.

The Texan made his announcement at a nationally televised news conference in the auditorium of the new Senate Office Building before a packed crowd of reporters and applauding Johnson partisans.

Expects To Be Named

Johnson said he hadn't come out for the nomination earlier because Congress was in session and "somebody has to tend the store." This referred to his duties as Senate majority leader.

But a campaign committee has been working hard for him for some time.

In opening the news conference by reading a prepared statement, Johnson made no direct claims for himself, but in the question and answer session later he asserted, "I am a candidate for president and I expected to be nominated president."

Johnson did not make any specific delegate claims of his own. He said merely his friends had told him he would have more than 300 votes on the first ballot and that his "chief opponent"—obviously Sen. John F. Kennedy—would have less than 200.

It will take 761 votes to win the nomination.

Jabs Kennedy

The Texan did not mention Kennedy by name at any point. But a number of his comments were clearly jabs aimed in the direction of the Massachusetts senator.

"Those who have engaged in active campaigns have missed hundreds of these (Senate) votes," he said. "This I could not do for my country or my party."

Johnson's prepared statement was written in a rather low and solemn key. It laid great stress on the serious world situation and the problems which will confront the next president.

Speaking of foreign affairs, Johnson said the question is not so much a need for a new policy as improvement in execution of the old policy.

"Some live wires" in that field, he said.

Johnson pictured himself as an experienced government official; one who had known "the presidency—and the men in it—intimately" since 1937.

He took what seemed a slam at Kennedy's recent intensive campaigning.

West Side Story:

Music Drama 'True Work Of Art'

By Gloria S. Randolph
MOUNTAINHOME — Every nation in the world has its own special art forms, its own music, its own theater. For years pseudo-intellectuals have been trying to convince themselves that America is only a borrower of art ideas. It has easily been proven that we are as creative as any nation in painting, sculpture and other plastic arts. For more than a century our literature has been important, and I am sure that no other country has any greater theater.

In the last two or three decades we have seen the development of an entirely new, wholly original art form, the American Musical. A work like "West Side Story" cannot be dismissed as a mere "musical comedy." It is not opera, opera or simply a "hit show." It is American music drama at its best, and must be judged as a serious work of art.

It is important to understand that all of our now classic American musicals ("South Pacific," "My Fair Lady," "Oklahoma," etc.) are structurally different. One may be operatic in character, another may employ devices and techniques of opera or almost any kind of musical play from revue to grand opera.

Modern Romeo-Juliet
"West Side Story" is a modern day Romeo and Juliet story set to beautiful jazz music, but unlike opera with its recitations and arias the plot is furthered by movement—every part of the

story is expressed in dance form. The arias, duets and ensemble singing are incidental. The vocal numbers are integrated in the story and are quite beautiful musically, but the dancing overpowers them. Composer Leonard Bernstein wrote several lyrical songs which are worthy of becoming "hits" but are stepped on by the activity of the rest of the score.

At the Pocono Playhouse this week "West Side Story," by Arthur Laurents, Leonard Bernstein and Stephen Sondheim, is being presented in a very exciting way. Noel Schwartz, who did the choreography and plays one of the main roles (a gang leader), did a remarkable job in both ways. The staging by Byrne Piven who also plays the lead, is very good. Piven is a fine actor and his performance as "Tony" was more than adequate. His singing voice was sometimes tremulous and was generally lacking in color. While never unpleasant it was often ineffective.

Gerianne Raphael—who plays "Maria," the girl "Tony" loves—has a rather shrill voice with a wavering, unsteady quality which I found annoying. Even though she had shortcomings vocally, Miss Raphael proved herself a fine actress and dancer. Her voice was not consistently bad and during some of the tender love duets she was fine. I especially liked the vocal duet during the dream ballet "Somewhere."

Ronn Cummins as "Action," one of the gang members, was most impressive as he seemed to keynote every scene in which he appeared. He danced in a vital way which enlivened the spirit of the whole performance.

Noteworthy Performance
Other noteworthy performances are those of Luba Lisa, Betty Aberlin, Kip Watson and Randy Doney. The entire cast is a magnificently united ensemble, precise in their timing, and thoroughly professional in every way.

There are four "adult" roles, all very well played. Roger Sturdevant is very funny as a saccharine high school teacher, and Eugene Wood as Doc, the only adult who seems to have any understanding for the teenagers, is quite capable. David Ellin projects just the right amount of evil into his portrayal of a prejudiced police official, and Michael Lewis is fine as Officer Krupke, a rather stupid policeman.

This week Jack Bates has designed settings which are outstanding in every detail. The lighting is perfect and every set has just the right kind of atmosphere. It is a very difficult production technically, and the stage crew deserves many compliments.

Recommended Highly
The entire presentation is extremely good. The music direction is excellent. The two planners, Robert Proctor (director) and Sidney Raphael, with Jan Williams, percussionist, provide a musical foundation exactly timed with every action on stage. Since I feel so strongly that this kind of theater is important as a national art it was a great pleasure to see it so well done. I recommend it highly to everyone who is interested in an evening of worthwhile entertainment.

Internship At Seattle

NEWFOUNDLAND — A. William Hahn, son of Mr. and Mrs. Adam Hahn, of Denver, Pa., formerly of this place, was among the 130 medical students gradu-

ating at the University of Pennsylvania Medical College in June.
Dr. Hahn and his wife left immediately for Seattle, Wash., where he will serve an internship at the King County Hospital.
He is a graduate of Greene-Dreher-Sterling Joint School, Newfoundland.

Reading RR Seeks Reduction

HARRISBURG (AP) — The Reading Railroad wants to reduce its passenger service to the Pottsville area.

In a petition to the Public Utility Commission Tuesday, the carrier asked authority to discontinue its 8:25 a. m. train from Pottsville to Philadelphia; 10:45 p. m. train from Philadelphia to Pottsville; 10:10 p. m. from Pottsville to Reading, and the 6:10 p. m. from Reading to Pottsville.

The proposal would affect trains which operate Monday through Saturday.

In filing the new petition, Reading announced it would drop a pending application to abandon all passenger service between Reading, Pottsville and Shamokin.

BIG CHEVRON CONTEST!

PUT WORDS IN HY FINN'S MOUTH AND

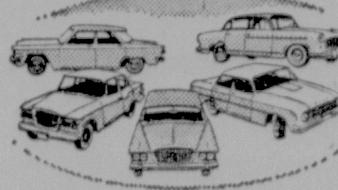

WIN ENOUGH CHEVRON SUPREME TO DRIVE YOU TO DISTRACTION!

DISTRACTION is a dusty (but real) ghost town in Arizona. Winners don't have to drive there. But they'll win enough gas to go — \$75 worth!

404 FIRST PRIZES! (No Second Prizes!)

But 5 Super First-Prize winners will also get something to use their prizes in—a new Corvair, Falcon, Lark, Rambler or Valiant!

All you do is make up a Hy Finn quip! You've heard 'em on TV — zany gags about Chevron Supreme Gasoline, Chevron Service, Stations or Dealers. This is your chance to write one yourself!

It's easy. Your quip can be any length — but the shorter, the better. It can say anything — but the funnier, the better. And it can win you enough Chevron Supreme to

drive you to Distraction, Arizona! (About 3,000 miles from the East.)

Mind you, winners don't have to drive to Distraction. But they will win enough gas to make the trip. And five Super First-Prize winners — maybe you — will also get a new compact car to help them use up their gasoline. Official Entry Blanks are at every Chevron Station. Drive in and get yours!

ENTRY BLANKS AT ALL CHEVRON STATIONS

Now CHEVRON SUPREME has Methyl*—first new antiknock compound since Ethyl

FAMILY ARRIVAL—Mr. and Mrs. James Kunkle, and little daughter, Rumiko, pose after their arrival in East Stroudsburg from Japan. He is with civil service unit in Japan and is visiting parents, Mr. and Mrs. Alton Kunkle, R.D. 3 of East Stroudsburg. Kunkle is an ex-staff sergeant and previously spent five years with U.S. Army in Japan.

(Staff Photo by Les Carlton)

E-Burg Man Believes Japs Would Have Harmed Ike

By Tony Cesare

AN EAST Stroudsburg man who has just returned from the Far East, said yesterday that he actually feels "President Eisenhower would have been harmed" by rioting students in Japan if the President had completed his proposed trip.

James A. Kunkle, an ex-soldier and presently with the U.S. Army in another capacity, is home on a 30-day furlough from that Oriental country. He is awaiting re-assignment orders, as a civil service employee.

Kunkle entered service in June 1954 and spent five years at this Pacific Island of 98 million Nipponese. He is married to an Haiki resident, Haruko Izaki. They were wed on March 13 of last year. The Kunkles have one girl, Rumiko, who is six months young. She was born in Sagihara.

None Over 21

The area man says he "can't remember any one of the students being over 21 years of age. They are only a minority group," he contends.

"Although some of the other Japanese people were behind the movement, these particular ones didn't have the sense to know what they were doing," he elab-

orated.

These demonstrations, riots and anxieties were preludes to President Eisenhower's proposed good-will tour of Japan. The trip was cut short when the Japanese premier informed the Chief of State of the present conditions in his homeland.

In the previous chain of events, Kunkle reported that he and his wife were shopping in Tokyo one day and it happened to be a time James Hagerty, White House press secretary, was arriving in the Japanese capital.

The press secretary was on preliminary itinerary of the island for the President's later tour.

Heard Commotion

Kunkle relates: "We went shopping in Tokyo and while in town, we heard this student commotion at Haneda Airport. We went to see what the disturbance was. Hagerty was just emerging from the plane when (U.S. Ambassador to Japan) Douglas MacArthur III climbed the ramps to greet him. The two officials then entered a waiting automobile and were about to leave the airport when a large crowd of people surrounded the vehicle.

"About 150,000 Japanese, mostly students, were jeering, jousting, singing, in taunting manners at the two and wouldn't let the car through the airport gate, he continued.

"They (Japanese police) were helpless. They were completely outnumbered in the first place and wouldn't attempt to quiet them if they weren't. The students were just that arrogant. After a few minutes, a Marine helicopter appeared hovering overhead, descended on the spot and dispatched the two Americans from the scene," Kunkle recalled.

Kunkle said he felt uneasy because all one Nip would have to say was, in effect, "there is an American" and no telling what they would have done.

The students, he remembered, later marched down the streets to the Diet (parliamentary building).

Prior to the President's official visit, which was never carried out, Kunkle claims the students paraded through the streets with placards reading: "We'll Dike Ike."

"I don't know what the heck they meant," he reported, but I suppose it rhymed with "Ike" so they used the word.

Kunkle is the son of Mr. and Mrs. Alton E. Kunkle, of R.D. 3, East Stroudsburg.

Awaiting Re-assignment

He is awaiting re-assignment orders to Japan. The ex-staff sergeant is with transportation and supply unit, General Depot, U.S. Army-Japan. He transferred to the civil service work after leaving the Army in December 1959.

When he returns to the Far East, he hopes to make his home in Japan. He arrived in the United States last Wednesday.

"I love Japan," he remarked. "I like everything about that country."

His wife, who speaks very little English, made it known, however, that whatever he says, it is all right with her.

Flood Control Project

East Burg Council To Adopt Ordinance

THE EAST Stroudsburg Borough Council made a motion last night to adopt an ordinance providing for the condemnation of additional land for the Flood Control project. The motion was made during the opening minutes of the regular monthly meeting of the council. Council president Harold Wiggins, presided.

In other action, the council tabled for the time being a consideration for the addition of a resolution providing for creation of a Regional Planning Commission to be known as the Regional Planning Commission of Greater Monroe County.

It approved authorization for

proper officers to enter into a contract with the State Department of Highways in making way for the planting of the triangular plot of land at the East end of the Interborough bridge.

Lights Requests Submitted

Requests for street lights on Franklin Hill Road were submitted to the proper authorities for study. But did approve of street lights on Spruce St. The council also was in favor of prohibiting parking on the West Side of North Kistler St.

The board made known of the Sanitary landfill demonstration will be held on the borough's site below Lincoln Ave., on Saturday, July 9, at 10 a.m. The public is invited to attend the demonstrations.

A Franklin Hill resident made several complaints namely, poor drainage system there, no fire boxes within immediate reach, nor any street lighting in the area.

Needs Correction

The resident said the drainage situation needs correction. He reported that because of the poor roadway — as a result of the overflow of water, his business has been hurt. Certain supplying firms no longer wish to travel the road to reach his business location.

The case of unsanitary conditions existing at the rear of a home at 147 King St., and the trailer court on King St., was referred to council for action. The situation is created, it was reported, by a natural swamp in the area which is on or near the property of International Boiler Works. The resume said the conditions cause a breeding place for mosquitoes and leaves obnoxious smells along this area.

3 More Days Of X-Rays For Handlers

THE Tuberculosis Society will stage three more days of County X-raying of food handlers starting today at Tannery. The society x-rayed 1692 persons in four days in June.

The three days have been organized by the Monroe County Tuberculosis Society, sponsored by the County Medical Society, and the mobile X-ray unit was sent by the State Department of Health, Bureau of Tuberculosis Control.

The unit will be at Tannery today from 10-11:30 a.m., at Unity House from 2-3:30 p.m., and at Pocono Crest, Pocono Pines, from 7-9 tonight.

Tomorrow the unit will be at Sky Top from 10-11:30 a.m., from 1:30 to 4 p.m. at the Mountainhome YMCA, and on July 8 it will be at Pocono Manor Inn from 10-11:30 a.m., and at Mt. Pocono Fire House from 2-4:30 p.m.

Bookmobile Slated For Tobyhanna

A BOOKMOBILE for Tobyhanna, offering literary advantages to that area, has been offered by the Monroe County Library.

Thursday at 9:45 a.m. a series of Bookmobile visits will begin. Two sites will be visited each time and will be rotated with each visit.

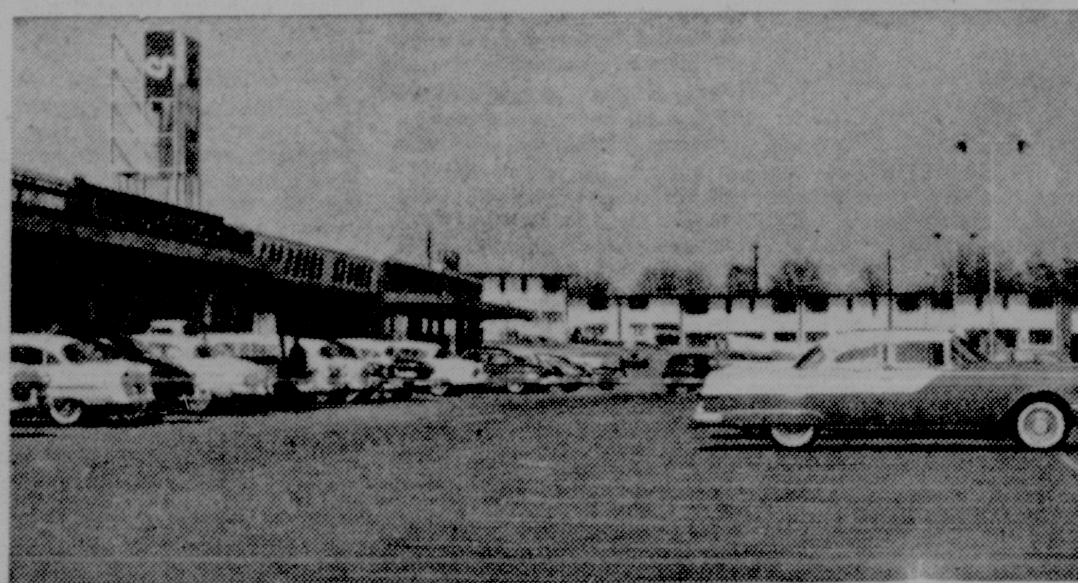

Thursday the bookmobile will be at St. Anne's Catholic Church parking lot from 9:45 to 10:45 a.m. The Wherry Housing will be the second area to be visited, from 10:45 to 11:15 a.m.

Rev. Thomas N. Smiley, elected chairman of the project by the Tobyhanna Community Council, noted that July 21, August 4 and 18, and September 1 are tentative dates for future visits.

It's just good business to pave your parking lots with low-cost

soil-cement

No potholes and messy puddles. Soil-cement grows stronger with age—all but eliminates maintenance! Whether it's a tax-supported parking lot or one for a private enterprise, it makes good sense to pave with long-lasting soil-cement. Actually it's the strongest pavement other than concrete. Tests prove it grows stronger year after year. It won't pot-hole or soften—won't collect water. It stays level!

Initial expense is low. The main ingredient can even be soil at the site. This is mixed with portland cement and water, rolled solid and topped with a thin bituminous covering. Thousands of miles are used annually on state and county roads, city streets and parking lots. Write for free booklet.

PORTLAND CEMENT ASSOCIATION

Buck Hill Man Names New Prexy

WILLIAM F. Laporte was elected president of American Home Products Corporation, according to Alvin G. Brush, chairman. Laporte succeeds the late Walter F. Silbersack.

The board of the drug, food and household products manufacturer also elected Herbert E. Carnes to board vice-chairman, H. W. Blades of Philadelphia to executive vice-president, and Kenneth A. Bonham to executive vice-president.

Resident 30 Years

Brush, born in New York City, moved to this area to establish summer residence 30 years ago. He lives at Buck Hill Falls. His daughter is the wife of Dr. Robert Day of Buck Hill Falls.

Before joining American Home Products as chairman in 1955, Brush had been a partner of Smith, Brush and Co., accountants; president of R. L. Watkins Co., and president of Affiliated Products.

He is a director of the American Foundation of Pharmaceutical Education, Electric Bond and Share Co., Health Information Foundation, Manufacturers Trust Co., New York Philharmonic, Proprietary Association, and a trustee of the Dime Savings Bank of Brooklyn and New York University.

He received his Bachelor of Commercial Science degree from New York University, which later honored him with a Doctor of Commercial Science. Temple University honored him with an L.L.D. degree.

Special Meet Of Falcons

A SPECIAL meeting of the George N. Kemp American Legion Post 346, Drum and Bugle Corps will be held tonight at 8 p.m. in the Legion Home, James Sheeley, president of the corps reported.

The corps—better known as the Falcons—will give a special concert at the carnival presently underway on the legion post grounds.

It is always better to make your selection of a Memorial while all are together.

Outdoor Art Show Slated For Stroudsburg July 8-9

By Olivia Dreher

OUTDOOR Art Show time is here again. July 8 and 9, Friday and Saturday, all day and night are the dates of the first 1960 Summer Show, sponsored by the Pocono Mountains Art Group.

Here again for the ninth consecutive year local artists and

fellow colleagues from other places will exhibit their works—some against a natural setting of trees and bushes in the Court House Square; others against brick buildings, cream and red and grey, mellowed by time, along both sides of N. 7th St. and east and west on Monroe St.

Amateurs-pros

Amateurs and professionals will show work in the primitive, representational and academic trend through impressionism, cubism, expressionism, abstract, non objective and action painting in as many media.

Some exhibitors will stay with their work and be ready and eager to discuss their canvases with interested passers-by or prospective buyers. Others will leave their assigned stalls and wander about occasionally to talk with other artists.

Some will set up their exhibits late and leave early; others will arrive at 6 in the morning and remain long after dark. Still again, a few small groups will linger until midnight—their discussions and conversations ranging from a point of the technique to the rare atmosphere of the philosophy of painting.

A spirit of camaraderie and informality permeates the scene.

The show is unique in its appeal and should be a stimulating and rewarding experience for both the exhibitor and the spectator.

The Pocono Mountains Art Group welcomes the native folk and tourists, whether they be prospective buyers, art lovers or passive admirers and urges them to put the Outdoor Art Show in Stroudsburg, Pa., on their agenda for July 8 and 9.

74 Miles Of Striping On Rte. 611

SEVENTY-FOUR miles of white highway striping on Route 611 has been completed, Frank Smith, superintendent of Department of Highways reported yesterday.

The department incorporated several new features in the highway striping by painting both the center and highway edges. Glass beads, which add invaluable assistance to drivers through their reflective qualities, were also utilized.

The project runs from the Northampton County border to the Wayne County line. The department reported also that 1,165 gallons of white line paint and 6,680 glass beads were used.

Cost \$3,288.12

The total cost of the project ran to \$3,288.12. This averages to 44.89 per highway mile.

The department has received many complimentary remarks from motorists as a result of the new features. The edge striping is a real aid during haze or fog as it shows up well. Supervisors for the job were R. Levan and Robert Frailley.

Impact Of Imports

There is good news for the business community in recent steel import figures.

The U.S. Department of Commerce says importation of foreign steel dropped from 464,000 tons in March to 331,000 tons in April and is running 10 per cent below 1959 tonnage.

This is important to U.S. employment in the steel industry. It explains, in part, why a "definite pickup in domestic steel demand" is anticipated

through the remainder of 1960.

Last year, steel users imported 4.4-million tons—the greatest volume in history. During the same period, American steel manufacturers exported only 1.5-million tons.

The difference represented about two weeks of employment in the American steel industry.

It is as simple as that. What we import means lost manhours of labor for American workmen.

Opinions Of Other Editors

That's Where They Came In

There are few things surer in this world than the horrified attitude the Pennsylvania Association of Boroughs takes toward regional planning every year at its annual conference.

Last year the association passed a resolution opposing regional planning, just as it did the year before. Now the same old news has come flashing over the wire from this year's convention in Pittsburgh.

At least the authors of this year's resolution, a group of borough officials from Montgomery County, are honest about their opposition. They're simply afraid that regional planning is the first step toward the loss of borough identity.

Regional planning, they said, is "a grave threat to the independence of the

borough and a forerunner of metropolitan area governments."

Borough officials, if they would take the time to look at the enormity of problems that have descended on urban areas, might well decide to loosen up their views. A positive policy of cooperation with other communities is about the only alternative to what officials of small municipalities most fear—consolidation into single metropolitan governments.

There is nothing at all sacred about "the independence of the borough." About the only way that the Paxtangs, the Penbrooks and the Wormleysburgs of this state can continue to justify their existence is by pulling their weight on the job of making their urban and suburban regions better places to live.

—Harrisburg Patriot

George Sokolsky Says . . .

Presidential Flexibility

The Cuban situation further emphasizes the inflexibility of our foreign activities. We seem to be caught in a vise. Actually, the President can hardly do anything except to order troops in.

He could not, on his own, proclaim economic sanctions against a country which is definitely our enemy — an implacable, miserable enemy.

He cannot order troops in without violating the Rio Treaty and we do not know whether the countries of the Organization of American States would support us or support Castro on doctrinaire grounds.

The Sugar Bill is a case in point. The United States subsidizes the Cuban sugar industry by purchasing a quota of sugar from Cuba at more than two cents a pound over and above the world price.

No matter what Cuba does to the United States, the President has had no power of retaliation and the United States was required by law to continue to subsidize an enemy even if the money we give him is used against us.

The Sugar Bill (H.R. 1231) gives to the President authority to establish the quota for sugar, at whatever amount he sees fit for the balance of the year 1960 and for 1961.

There has been considerable

resistance to giving the President this authority, the resistance coming from American sugar growers in Cuba who do not wish to have the present arrangements changed.

Unfortunately for them, too many events are occurring in too many parts of the world for any current arrangement to be of a permanent nature. That is why there must be more Executive flexibility.

For instance, when the present sugar quota and prices were arranged with Cuba, the government of that country was pro-American. It may or may not have been the most satisfactory government in the world, but we could get along with it.

That ought to be the sole criterion for the American attitude toward any government: is it or is it not friendly and compatible to the United States; does it deal with the United States fairly; are our goods well-received in its markets?

We do not need to decide whether the form of any government is compatible with ours. Most are not.

Those deskmen in the State Department who were so violently anti-Batista and pro-Castro were not giving much thought to the United States. They were deep up to their hips in Cuban affairs. They were concerned with the intimacies of the Cuban situation. Did it ever occur to them that the United States had a stake in it all?

When I lived in the Far East, the same attitude was always

true of our people there — American officials in China were pro-Chinese; the American officials in Japan were pro-Japanese. Who was pro-American?

Thus, the State Department was violently anti-Batista and equally violently pro-Castro. Now, it has to find a way out of the deskmen's errors and it is very difficult. Will they resign as a Britisher would do or will they commit suicide like a Samurai?

Not at all. They will be promoted to higher posts. No matter how many errors they make and how grievous the errors, seniority and secrecy save them.

The President needs great flexibility of power during the Cold War. Without it, his hands are tied because the Soviet group moves so swiftly. In the Cuban situation, economic sanctions should have been employed almost immediately.

That would have corrected the first error of the State Department deskmen who accepted Herbert Matthews of "The New York Times" as their guide and misread the entire Cuban situation.

This also needs to be said: because we are never in possession of all the facts of a situation, no matter how hard we may try these days to inform ourselves. The same cannot be true of the deskmen in the State Department who have access to all sorts of data. For instance, they knew all about Castro from our Ambassador to Cuba, Earl E. T. Smith, and they had reports from our Ambassador to Mexico, Robert C. Hill.

But did the President have such information? Was the President given correct reports or only screened versions, carefully screened to conform to which had been propounded in the State Department or by the President's brother, Dr. Milton Eisenhower, who is an expert on Latin-American affairs?

From The Realm Of Stamps

By Ray Patton

September 14 at Baltimore, Md., the fourth "Credo" stamp will have first day sale. This will be a four-cent stamp and a feature Francis Scott Key's words from the Star Spangled Banner — "And this be our motto, in God is our Trust."

The key "Credo" will be in the same design as the previous ones except for the message, signature and the device. The symbolic device to the left of the statement will in this case be stars and a bursting bomb within a double circle.

The stamp will be printed in red and blue on white—the colors of our American flag. Mrs. Mary Young Pickersgill made the flag for Col. John Skinner an American agent trying to arrange a prisoner exchange with the British.

It was from this small American ship that Key saw on the night of Sept. 13-14, 1814 "By the Dawn's early light" that the "flag was still there" flying over the star-shaped fort and he scribbled the verses we revere today as our National Anthem.

Stamp Club news—The Monroe Stamp Club will meet tonight at 8 at the home of Dave Miller, 36 Club Court, Stroudsburg.

Journey To Understanding

Off The Record

By Robert Clark, City Editor

Mr. and Mrs. Van D. Yetter, like all good Democrats, took to the highways and naturally headed for Missouri.

In the Show Me State, Van and his missus visited the famous Harry S. Truman Library in Independence.

The Yetters saw all of the great moments in the history of the former president of the United States, including the replica of Truman's office in the White House.

We haven't heard whether Van, Monroe's son in the State House of Representatives, had a talk with Truman or whether the former president switched the Marshalls Creek resident to Senator Johnson of Texas instead of the Democrats' present favorite for the presidency Senator Kennedy.

Former commanding officer of the Tobyhanna Signal Depot, Col. Clifford Poutre, will be the principal speaker at a dinner session of the Pocono Mountains Chapter, Association of U. S. Army, in the depot cafeteria, Friday.

His talk will be on the history of the U.S. Signal Corps. Col. Poutre, retired, is founder and first president of the local AUSA chapter.

Jake (The Clutcher) Jacobson and his fellow Marines have returned from a two-week training period in the southland.

The job down Dixie way couldn't have been too tough, especially for Jake—he returned weighing 10 pounds more than when he left a fortnight ago.

—By E. Simms Campbell

"Simple case of assault. He started reading his poetry in a night club."

The Pennsylvania Story

Road Funds Needed

By Mason Denison

Harrisburg — Yesterday this column pointed out that Pennsylvania's Department of Highways has a yearly income of \$268½ million actually has only \$57½ million available for new construction and reconstruction on the Keystone State's vast 41,700-mile highway system.

With this "pittance" (comparatively speaking) remaining, the question might well arise as to whether Pennsylvania has as yet failed to match federal road aid allocations — ten per cent on the 90-10 Federal Interstate and Defense Highway Program

and 50-50 on the federal aid primary road program.

The answer is no — not yet, but it could very easily happen. Look at it this way:

On May 31, 1960, all unobligated federal aid funds totaled some \$34 one-third million. Federal aid allocated for 1961 and due July 1, 1960 totals \$111 three-quarter million of which some of federal aid primary funds are already obligated.

However, the Federal Highway Trust Fund lacks sufficient money to enable the States to obligate these new allocations.

A U.S. Bureau of Public Roads directive of June 10 permits only 81 per cent of these Federal-Aid allocations to be obligated during the year.

Thus with a total of federal-aid now available to Pennsylvania of \$116,500,000, the Commonwealth's necessary matching funds amount to \$49,120,000.

During the year the highway department plans to spend \$52 million on the 100 per cent State supported roads, totaling 21,000 miles. These improvements are vitally necessary.

Available federal-aid and necessary State matching funds would provide a \$165,699,000 federal-aid construction program, and with \$52 million for improvements on the 100 per cent State roads, the total proposed yearly would amount to \$217,699,000.

We have already noted how the Pennsylvania Department of Highways has only some \$57½ million of State funds available for all new construction.

But, to take advantage of all federal-aid funds, which may be obligated during the year, and in addition, to provide \$32,000,000 for the 100 per cent State roads, the Pennsylvania Department of Highways needs \$101 million in State funds!

Thus, the proposed highway program lacks over \$43 million in State funds to make it possible!

Even a penny increase in the gasoline tax would not provide the necessary additional funds for the Pennsylvania Department of Highways!

A penny would produce only some \$33 or \$34 million dollars a year!

Pennsylvania Secretary of Highways Park H. Martin — the one man who should know the score — has this to say:

"The scope of the job that must be done is staggering. The effort, however, must be made or the State will be in grave danger of stagnation because of an antiquated highway transportation network.

"What are our needs in Pennsylvania, I have estimated that the Pennsylvania Department of Highways should spend on construction at a rate of a quarter of a billion dollars a year over the next twelve years, a total of three billion dollars.

"Pennsylvania has never had that kind of money to spend on roads, but it must have it."

Pennsylvania motorists would do well to look to their legislative representatives — who last year turned down a proposed increase in the state gas tax — as to one of the reasons for future repetitions of the past Fourth of July "motorcade of consternation and frustration."

The Allen-Scott Report

Atomic Safety Loophole

By Robert S. Allen and Paul Scott

Washington—The Joint Congressional Atomic Committee has become so concerned over the handling and safeguarding of U.S. nuclear weapons on foreign bases that it has named a special subcommittee to conduct on-the-spot inspections.

Heading this select group is Rep. Chet Holifield, Calif., who will assume the chairmanship of the Joint Committee next year if the Democrats retain control of Congress. Another ranking subcommittee member is

Health Column

Cancer Vaccines

By Herman N. Bundesen, M.D.

Is a cancer vaccine the answer to the cancer problem?

If we eventually determine that the cancer cell is a foreign element in the body, such as viruses and bacteria, we may some day be able to prevent the disease through vaccination.

The theory of a cancer vaccine is not new. In fact, scientists have developed a vaccine that has had a certain amount of success in mice.

Among the first to become interested in the possibility of a cancer vaccine was a group of University of California scientists. They tried to produce one in several different ways. Unfortunately, none of them worked.

Transplanted Cancers The scientists transplanted cancers in vaccinated mice and unvaccinated mice. Both groups of mice died rapidly.

Then the scientists decided to kill the cancer cells with x-rays and use the dead cells as vaccine.

The mice were given injections of the dead cancer cells. This was followed several days later by injections of live cancer cells. Still, the mice died on schedule.

Tried Again But medical investigators are a persistent lot. The doctors tried again, this time giving the mice a vaccination

Rep. James Van Zandt, Pa., who will become Joint Committee head in the event the Republicans take Congress.

A startling admission by top Pentagon and Atomic Energy Commission officials was behind this unusual Joint Committee action.

Defense Secretary Thomas Gates and AEC Chairman John McCone acknowledged at a closed-door meeting that it is possible, although highly improbable, for U.S. nuclear warheads held in readiness on foreign bases to be "inadvertently" fired, or seized.

At this unannounced session, held expressly to probe this ominous problem, Gates and McCone disclosed under questioning:

More than 60 Thor intermediate range (1500 miles) ballistic missiles are now poised

on launching pads at four British bases.

These U.S.-produced IRBMs, aimed at vital Russian and other Iron Curtain targets, are

in the physical possession of the British Air Force. Specially trained RAF officers and approximately 1,000 troops per base have custody of these Thors—under the agreement placing them on these bases.

But the nuclear warheads of these IRBMs, also on these British bases, are in the hands of a small U.S. contingent. Except under certain extraordinary conditions, only this small American force has the authority to "employ" these cataclysmic weapons.

A U.S. officer has the two keys that arm these nuclear warheads.

He alone is empowered to perform this lethal function.

"Then the situation is one," said Holifield, "where this U.S. officer acts only on orders from Washington, while the control of the launching of these THORs is vested in an RAF officer who takes his orders from the British government. That means the effective use of these missiles depends entirely on the smooth and full cooperation of the White House and Whitehall."

McCone and Gates acknowledged that was correct.

Fearful Keyhole — The two keys that arm these nuclear warheads fit individual locks on each weapon.

These separate locks are labeled "Peace" and "War."

Each has to be unlocked to arm the warheads. Even then these weapons will not detonate until certain acceleration, height, velocity and other conditions have been attained. These measures are designed to prevent an explosion through malfunction over friendly territory.

Once launched, these THORs cannot be stopped. They are not equipped with so-called "destruct" devices to destroy them by remote control.

Although more than 1,000 U.S. and British troops are stationed at these THOR bases, actually only seven men are required to fire the missile. Some 200 instruments and controls monitor every step of the preparation and five-phase countdown.

The Joint Committee closely questioned the Pentagon and AEC officials on (1) the possibility of the all-important warhead keys being taken from the small U.S. contingents by "force or trickery," and (2) the firing mechanism being armed by "short-circuiting or some other tampering."

The witnesses admitted this could happen, but is highly improbable.

"Theoretically it is possible," conceded Secretary Gates, "but it's extremely unlikely."

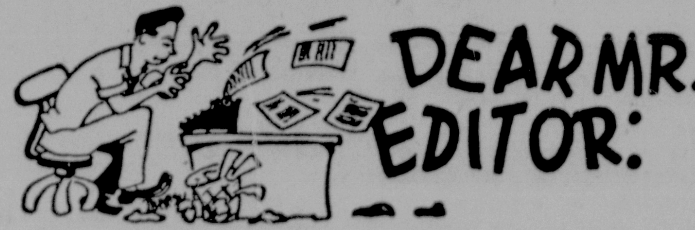

Rep. Holifield's special committee, in addition to visiting the four Thor bases in Britain, will also inspect similar installations in Spain, Turkey and the Far East. Their on-the-spot inquiries will include rockets and other nuclear weapons.

High Recognition — Tracy S. Voorhees, Undersecretary of the Army in the Truman Administration and a special assistant to President Eisenhower, has been awarded a long-deserved decoration — the Defense Department's Distinguished Public Service Award, that is bestowed only once a year on an outstanding civilian.

Voorhees is now vice chairman of the Committee to Strengthen the Frontiers of Freedom, a group of distinguished citizens headed by Dr. Vannevar Bush, noted scientist.

An Air Force medical study has produced the surprising information that 70 percent of 222 pilots killed in accidents, a large number between 20 and 24 years of age, showed some degree of coronary artery atherosclerosis.

While this disease is not deemed a "causative factor" in these fatal crashes, the study states, "That possibility is food for thought . . . and this disease should be considered in health surveillance programs involving aircraft pilots."

Hadassah Grateful

Editor Daily Record Dear Sir:

We of the Stroudsburg Chapter of Hadassah thank you most sincerely for the excellent newspaper publicity our organization received over the past many weeks in connection with our fashion show.

We fully realize that without the cooperation given us by your staff and many others in our community, we could never have so successfully undertaken such a gigantic project.

So we offer our gratitude to you and hope you may derive satisfaction from knowing that you participated in an event designed to bring aid to the

less fortunate people of Israel.

Graduation Party In Honor Of Local Boy

Foster "Laddie" Ladlee Jr., son of Mr. and Mrs. Foster Ladlee, of 54 Boro St., East Stroudsburg, was guest of honor recently at a graduation party at the home of his aunt, Mrs. Ellen Van Why.

He was graduated from the East Stroudsburg High School on June 13, where he was captain of the East Stroudsburg football team.

Singing and dancing was offered with music furnished by Laura and George McWilliams and Madalyn Bruck.

His grandparents, Mr. and Mrs. Bernard Fish celebrated their 53rd wedding anniversary and were honored with the "Anniversary Waltz." Also celebrating their 31st wedding anniversary were Mr. and Mrs. Charles Stokes.

A buffet luncheon was served to the following: Mr. and Mrs. Foster Ladlee, Mr. and Mrs. Bernard Fish, Mr. and Mrs. Harold Treible, Mr. and Mrs. Clair Tallada, Mr. and Mrs. LeRoy Hendricks, Mr. and Mrs. Harry Whitmore, Mr. and Mrs. Charles Stokes, Mr. and Mrs. George McWilliams, Mr. and Mrs. Hilton Miller, Mr. and Mrs. Lewis Van Why, Mr. and Mrs. Chet Crumer, Mr. and Mrs. Clarence Fish, Mrs. Martha Boyer, Mrs. Ellen Van Why, Mrs. Joe Shaffer, Mrs. Madalyn Bruck, Richard Blake, Roger Strouse, Philip Simon, Bill Fish, George Ladlee, Bonnie Treible, Deanie and Randy Hendricks, Jackie, Sissy, Kathy, Jo, and Sharon Tallada, Frankie and Tina Whitmore, Sara, Linda and Sissy Van Why, Donnie and Eddie Cramer, Clarence Jr., Dianne, Joe, Betty, Brenda, Donnie, Evie, and Benny Fish, Richard Ladlee, Arthur and Johnny Stokes, Charles Reidmiller, Donna Stokes and the guest of honor Foster "Lad" Ladlee.

Those attending were: Mr. and Mrs. Carl Booth and son Kevin, of East Stroudsburg; Mrs. Robert Messinger and daughters Denise and Debra; Mrs. Martin Hess and daughter Sharon; Mrs. Rose Marie Tobias and son Vernon; and Mrs. Dorothy Gilbert and son Gwynne; all of East Bangor. Mrs. Paul Frable and daughter Paula of Wind Gap, R.D.; Mrs. Warren Ryerson and children, Warren, Carl, Albert, Sandra and Lori; Mrs. Arnold Arsel all of Mt. Bethel, and the guest of honor, Michelle.

Hats and balloons were given to each child attending. A cake decorated with a carrousel on top and other refreshments were served.

Those attending were: Mr. and Mrs. John Franzel, Mr. and Mrs. Robert Hallet Sr., Mrs. Betty Weckheiser, and Jimmy Hallett Sr., Mrs. Suse Weckheiser, Mrs. Marion Weckheiser and Billy and Gary, Glen Flower and Barbie Barry and Bruce, Mrs. Everett Bennett and Barbara, Nancy, Ann and Jeff, Ann Louise Yoch, Mrs. Helen Smith, Jimmy Batton, Mr. and Mrs. Floyd Shively and Ricky, Barbara and Jean Ann, Dean's parents, Robert and Doris Hallet, Mr. and Mrs. Charles Bennett, Mrs. Gloria Eggert and Lee Ann, Mrs. Grace Walters, Jonnie Weckheiser, Norman Rinker and the guest of honor Dean Robert.

Sending gifts but unable to attend were Mr. and Mrs. Charles W. Bennett and Marda and JoAnn, Mr. and Mrs. Gerald Canfield, Mrs. Ada Mae Yoch and Sharon Canfield.

Error In Announcement

In yesterday's paper it was stated that Kenneth Williams of Tannersville announced the engagement of his daughter, Ann Marie, to Fred Nidlund, Jr. It should read Mr. and Mrs. Kenneth Williams announce the engagement of their daughter, Ann Marie.

Just Between Us—

—By Bobby Westbrook

Venice — The bells which were ringing in the hours in our hotel room last night, we discovered by daylight rang — not from the bell tower but from the Clock Tower on St. Mark's Square. The huge bell on the top is struck on the hour by bronze Moors — who look more than life-sized even from the piazza, four stories below. On the second floor two doors open every five minutes and the dials of the clock show not only the time but also the phase of the moon and the sign of the Zodiac.

And such magic hours as these have tailed off for us. Even our arrival was strange to motel-minded travelers. Our two-car caravan passed the industrial plants and house of on-shore Venice to the port where we drove in a garage. While Joe made reservations by phone (you tell them how much you want to spend and they find accommodations to fit) we unloaded the luggage on the platform and the boys drove the cars to the tenth floor of the garage.

A porter led us and our bags to the big ferry and off we went into the sunset sea to the city that seemed to be floating somewhere between earth and sky. It was solid enough when we followed the porter off the boat at St. 7 — but more like the Casbah every minute as we followed him in straggling, be-wildered line through alleys and over bridges and more alleys to our unknown destination — probably a watery grave I was thinking dully.

Turned out we'd come in across the island and the hotel itself was just off St. Mark's Square — clean bright, marble floors — indirect lighting — but no elevator. You think twice before you "run up to the room" when it involves 72 steps and ten turnings. But that's the only thing we've thought about twice. There's something so new every minute you don't have time.

By day — the pigeons dominate the square — particularly if you have a nine-year-old along. There are women with carts selling little papu-spills of corn. You don't scatter it as for chickens — just hold a little in

your outstretched hands and they perch all over you — arms, shoulder-head. Laughing at Rob-in wearing one like a hat — I suddenly discovered that I had a feathered hat of my own.

With the sky thick with pigeons every time the clock strikes, you'd think the square and the people in it would be a mess but it's as clean as the living room floor — my living room, anyway. Maybe they're housebroken!

Anyway, what with watching Robin feed pigeons — having our own tour of the gilded, domed, frescoed, columned, be-tasteful Basilica of St. Mark's, probably one of the most remarkable monuments in the world — and the grace and majesty of the Ducal Palace of the Doges next door — including crossing the Bridge of Sighs to the prisons — we were tired of climbing marble stairs and glad enough for lunch on tables by the Grand Canal.

And more than thankful we'd planned a gondola tour for afternoon. Gondolas are even handsomer than in pictures and more comfortable with cushions and upholstered seats. We took up two gondolas with our crew — and went gliding along past flowers — hung palaces, churches, bridges, barges, motor launches and other gondolas — through tiny canals, past back-docks and water-borne slums.

Sitting tonight having espresso at tables in the square with an orchestra playing waltzes behind us and the world passing in front of us — we decided that one reason we felt so peaceful despite the stimulation of so many new sights and sounds (despite my expectations the canals do not smell) — was the fact that there are no cars.

No horns, no squealing brakes or trucks gnashing their gears — no need for pedestrians to dodge across streets or watch both ways. No busses to catch — no place to go where your own feet or a water taxi can't take you. Only those Moors binging out the reminder that our time on this incredible enchanted city is passing by.

Ricky Anglemeyer Jr.

Local Boy Celebrates Birthday

Ricky Anglemeyer Jr., son of Mr. and Mrs. Richard Anglemeyer, 29 N. Ninth St., Stroudsburg, was honored by a party on his first birthday.

Games were played and refreshments were served. The table was decorated with a cake decorated in the shape of a tractor made by Ricky's grandmother, Mrs. Leonard Griffin.

Those present were Mrs. Ernest Anglemeyer, Mrs. Leonard Griffin, Mrs. Joan Peretti and daughters Vicky and Linda; Mrs. Jeanne Griffin and children Teri and Joey; Mrs. Betty Ann Carp and daughters Mary Ellen and Rosemary, Mrs. Tenya Graver and son Ronnie; Mrs. Patti Ludwig and son Bobby, Mrs. Elfrida Lee and son Wayne, Mrs. Richard Miller and daughter Heidi Sue, Randy Heckman, Maxine Hippler, Sharon Goodall, Kathi Anglemeyer and the guest of honor Ricky Anglemeyer.

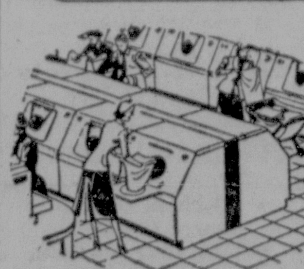

Sending gifts were Scotty Anglemeyer, Lori Stoeckel and Duane Andrews.

Paradise Meeting

Paradise Valley — The Paradise Community Center Organization will meet at the home of the president, Mrs. Harold Heydt, Paradise Valley on Thursday at 8 p.m. All are invited to attend.

The Baby's Named!

THE DAILY RECORD congratulates the parents and introduces to its readers the following new babies:

Marek Andrezej Szkudlowski

Mr. and Mrs. Alfons Szkudlowski of 116 Ransberry Ave., East Stroudsburg announce the birth of Marek, in the General Hospital on June 21 weighing seven pounds four and one-half ounces. He has an older brother Edward, age three.

The mother is the former Marta Hausner, daughter of Mrs. Zofia Krackiewicz of New York. The paternal grandmother is Mrs. Apolonia Szkudlowski of Poland.

Pearl Melissa Edinger

The first child born to Mr. and Mrs. Ross Edinger, RD 4, Stroudsburg, has been named Pearl Melissa. She was born June 23 in the General Hospital weighing five pounds thirteen ounces.

Her mother is the former Marilyn LaBadie, daughter of Mr. and Mrs. Christian LaBadie of 362 Lincoln Ave., East Stroudsburg. The paternal grandfather is W. D. R. Edinger, RD 3, Stroudsburg.

Lorraine Michelin

Lorraine is the second daughter born to Mr. and Mrs. John Michelin of RD 3, East Stroudsburg. She weighed seven pounds ten and one-half ounces at the time of her birth in the General Hospital on June 26.

Her mother is the former Betty Heberling, daughter of Mr. and Mrs. Elbert Heberling of Greentown. Paternal grandparents are Mr. and Mrs. Primo Michelin of Lattimer Mines.

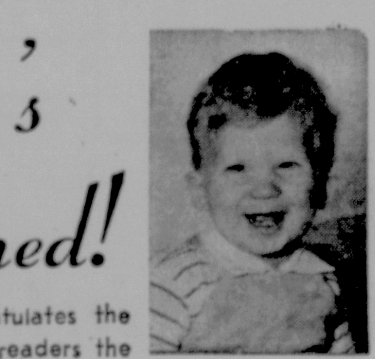

Patricia, two, is the first child.

Recent Baptisms Administered At Local Church

Richard Frederick Hamblin, infant son of Mr. and Mrs. Richard J. Hamblin of 16 Day Street, East Stroudsburg, was received into the baptized membership of Grace Evangelical Lutheran Church, East Stroudsburg, June 26 at 1:30 p.m. in the home of his paternal grandparents, Mr. and Mrs. Clinton L. Hamblin of 98 East Brown Street. Richard was born in the General Hospital on June 2. His mother is the former Erni Renate Andres of Germany. The parents served as baptismal sponsors. Also Mr. and Mrs. Russell E. Hamblin and B. Earl Hamblin.

Gary LeRoy Serfass, infant son of Mr. and Mrs. Robert E. Serfass of Stroudsburg, R.D. 3, was baptized on June 28 in the Children's Ward of the General Hospital while under an oxygen tent where he is convalescing from an illness. Gary was born in the same hospital on May 6. His mother is the former Iva Elizabeth Berger. The parents served as baptismal sponsors. A registered nurse and two nurses aids witnessed the baptism.

Ruth Ann Heller, infant daughter of Mr. and Mrs. Robert E. Heller of East Stroudsburg, R.D. 1, Mink Hill was baptized at 1:30 p.m. on Sunday in Grace Church. Ruth was born on May 25 in the General Hospital. Her mother is the former Delores Sarah Fritz. The parents will serve as baptismal sponsors. Rev. William F. Wunder officiated at the administration of the above sacraments.

by record

Daniel Romansky

Daniel was born June 23 in the General Hospital, weighing seven pounds 13 ounces. His parents are Richard and Gloria Margretta Romansky of 29 Tenth St., Stroudsburg.

He has a brother and sister, Kathryn Ann, 12½ and Richard Jr., eight.

The paternal grandfather is Peter Margretta, 2100 Fifth St., Stroudsburg. The maternal grandmother is Mrs. Catherine Romansky of 25 Second St., Stroudsburg.

James Francis Barnes, Jr.

James was born to Mr. and Mrs. James Barnes of RD 2, Stroudsburg, on June 26 in the General Hospital weighing seven pounds five ounces.

The mother is the former Nancy Spencer. The Barnes also have a son Wayne Keith, 16 months.

Paternal grandparents are Mr. and Mrs. Arthur Barnes of Delaware Water Gap. Maternal grandparents are Mr. and Mrs. Wilson Detrick, RD 2, Stroudsburg.

Brian Arthur DeLorenzo

Brian is the first child born to Mr. and Mrs. Arthur Thomas DeLorenzo. He was born June 29 in the General Hospital weighing seven pounds seven ounces.

His mother is the former Charlotte K. Jones, daughter of Henry Jones of 508 Front Ave., Roseto. The paternal grandparents are Mr. and Mrs. Arthur DeLorenzo Sr., of 71 North Main St., Bangor.

Mr. and Mrs. Robert T. Evans

Local Man Wed To Newton Girl

Miss Erminia Ballelli, daughter of Mr. and Mrs. Anthony Ballelli, of 1 Condit St., Newton, N. J., and Richard T. Evans, son of Mr. and Mrs. Henry S. Evans, of 235 East Brown St., East Stroudsburg, were united in marriage Sunday, June 26, at 2 p. m. in Christ Episcopal Church, Newton.

Rev. Leonard F. Nichols, pastor of the church, officiated at the ceremony before an altar of palms, white snapdragons and baby's breath.

A reception for the immediate families followed at the Cochran House.

The bride's gown was designed with fitted bodice, finger-tip sleeves and full skirt fashioned of imported silk organza and alencon lace. The neckline and skirt, with its chapel train, were edged with the alencon lace and highlighted with clusters of tiny seed pearls. She carried a cascade bouquet of stephanotis with phalaenopsis and ivy.

Nancy Evans, of East Stroudsburg, sister of the bridegroom, was the maid-of-honor. She wore a peach ballerina-length gown of silk organza over taffeta and a peach picture-style head-dress. Her cascade bouquet consisted of aqua poms with ivy.

The bridesmaids, Mrs. Elizabeth Thissen, of Lake Lackawanna, N. J., and Mrs. Dorothy Farrington, of Toms River, N. J., were similarly attired in blue organza and mint green organza, carrying a cascade bouquet of yellow poms and pink poms respectively.

Eugene Communal, of Delaware Water Gap, was best man. Ushers included John Kistler and Robert Cramer, of East Stroudsburg, and Arthur Jolley, of Stroudsburg. The mother of the bride wore a peacock blue dress with dyed-to-match accessories and a corsage of pink roses.

The mother of the groom wore

Arthur Widmer, head of our Wyckoff advertising department, hailed me as I passed his office enroute to my own, and wondered if I had seen the Armstrong trailer. I hadn't... although I had seen the Sandran motor car of 1903 being driven up and down the street by a Sandran representative, admonishing home owners to get rid of their antique floor coverings and invest in new. The pretty young lady in the duster and flowered bonnet being chauffeured through the town was Marion Widmer, "A.A.'s" wife.

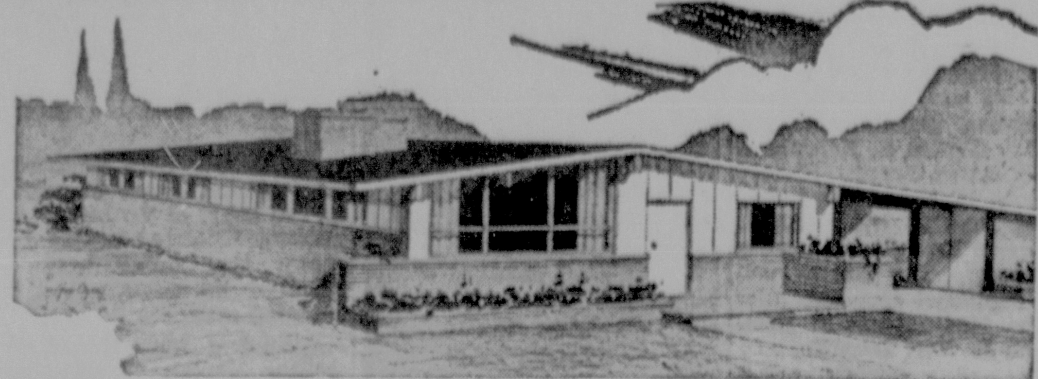

Down to the parking lot I hustled behind Shorty, who was carrying his Polaroid camera. Sure enough, there was a beautiful big, modern, air conditioned trailer dwarfing the little 1903 car. The trailer was staffed by Charles Cooke of the Armstrong Cork Company, and Jack Fursha and Bob Mateer of the Columbia Distributing Company.

Inside I found rolled samples of all kinds of Armstrong floor covering... mosaic style, gold-sparked patterns, etc. Also two big posters reminding me that personal income will be up 25% by 1965... (in terms of the '59 dollar)... the population will be up 12% by that year... there will be 20% more new families, and therefore more money waiting to be spent. There are 45,000 new classrooms, every year... 30% increase in new homes... 90% increase in non-residential construction, including banks, shops, stores, and super markets, and one out of every 2 of our nations present 29,000,000 homes needs renovating. This being so, the demand for floor covering should be tremendous.

Later, Mr. Widmer took pictures of the Armstrong fellows in the Sandran car. I am not sure whether this gesture symbolizes abiding friendship or will inspire a declaration of open war. Frankly, I'm in between... I love 'em both... and if you look at YOUR kitchen and bathroom floors right now you might be faced with the realization that YOUR home comes under the remodeling statistic. In this case, visit Wyckoff's and decide—will it be Armstrong or Sandran? Why not both? They fit beautifully into any room!

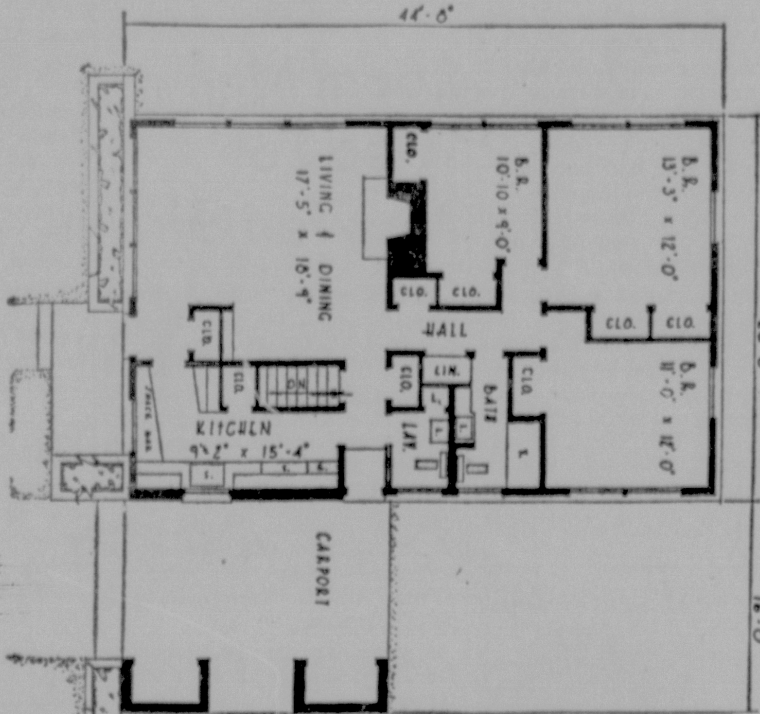

Daily Record's Home, Building, Maintenance Page

Parade of Homes

Design 2405

House: 1,261 sq. ft. 23,155 cu. ft.
Carport: 320 sq. ft.

Young Designed Home Has Old Fashion Taint

DESIGNED for young moderns, this home nevertheless has a wealth of old fashion livability within its brick exterior.

While offering an illusion of much greater size the home is actually only 28 ft. in width.

The carport measures an additional 16 ft. Economy is therefore a definite feature.

Presenting a pleasing picture of modernity that is neither stark nor extreme, the exterior is rendered in brick veneer,

large horizontal panels of glass and tastefully blended panels of vertical wood siding.

Doubles As Two

The open carport can also double as a sheltered terrace for summer entertaining.

Inside, the huge living-dining area commands both your attention and respect. Across the front wall is a magnificent picture window contoured to fit this room's studio ceiling. Standing opposite is huge fireplace set into a floor-to-ceiling wall of ledgerrock.

Side Entrance

A side entrance leads directly to the carport and adjacent to this entrance is also a lavatory and the basement stairway.

The three bedrooms boasts master-size dimensions. Wardrobe space is in abundance with a "his and hers" arrangement provided in the larger of the three.

Centrally located is the modern bath. A two-way linen closet is accessible from both hall and in the bathroom. A vanity compliments the lavatory.

Enlarged prints of design (front elevation and floor plan) are available for 25c.

This plan conforms to general FHA, VA and Building Code requirements. The plan contains 1,281 Sq. Ft., 23,155 Cu. Ft. Your builder or material supplier can give you the average cost per square or cubic foot in your area.

Complete Building Plan, including Detail Sheet, Material List and Specification Guide for Design No. H-2405 for 1st set; 2 for \$18.25; 3 for \$26.25; or 4 for \$33.75. You may also purchase The Daily Record Plan Book showing 71 designs for 75c postpaid. Address all questions and orders to HomOgraf Home Plan Dept., The Daily Record, Warren, Michigan.

Here's The Answer To Two Questions

QUESTION: Our house has wooden shingles on the roof and we figure it is about time we had a re-roofing job done. We are thinking about using asphalt shingles. Can you tell us something about them?

ANSWER: They are the most widely-used residential roofing material. They also are the least costly, with the exception of asphalt roll roofing, which is not used too much on homes because it lacks the eye appeal of shingles. Asphalt shingles can be applied on roofs with as little as two inches of pitch and have a life expectancy of 20 years. They are available in a wide range of colors and are fire resistant. They are not wind-resistant, although wind-resistant applications can be obtained by advising the contractor. In most cases, this extra advantage costs a little more, since the tabs must be cemented. Unless the wooden shingles on your roof are in extremely poor condition, they do not have to be removed. The asphalt shingles can be applied directly over them.

QUESTION: Our living room ceiling, which is very high, has darkish gold color on it. I want to paint it white, but a neighbor says that will only make the ceiling appear higher. Is she right?

ANSWER: She is. A dark tone tends to "pull down" a high ceiling. A light shade "raises" a low ceiling.

You Can Keep Children Close To Home With Slide

YOU CAN keep children playing close to home with this giraffe's neck slide. Almost as soon as dad starts building, eyes of small fry widen with wonder. When completed, news spreads fast and before you can say "giraffe" your backyard becomes number one on the playtime hit parade. Designed to absorb hard knocks, the high sides and wide steps provide additional safety for all who slide.

This colorful playtime project offers wholesome recreation. No one makes more friends or keeps children healthier and happier than this friendly giraffe. Youngsters are sure to smile when they slide down his neck. You'll have fun building this slide from pattern offered below. All parts are cut according to pattern, then fastened together exactly as step-by-step directions indicate. Illustrations simply assembly by indicating location of each part. No special tools are needed.

Read Directions

The only skill required is an ability to read simple step-by-step directions. The pattern tells what materials to buy, where each is used. Lumber is stock size and readily available at lumber yards everywhere. Full size painting guides simplify decorating. These are traced directly on the finished slide in position indicated on the pattern.

For fun, relaxation and an economical answer to your child's playtime pleasure, build this colorful slide. Send \$1.00 for Child's Slide, Pattern No. 63 to Name of Newspaper, P. O. Box 215, Pleasantville, N. Y. Send additional 35c for 64 page catalog illustrating over 300 other build-it-yourself projects.

Immune Paints Important

IN PAINTING concrete, stucco, mortar, cement block and similar types of masonry, it is important to use paints which are immune to the alkali present in these building materials.

These paints include exterior latex designed for masonry use, portland cement, solvent-thinned resins especially suitable for swimming pools, and transparent silicone coatings. Oil-based paints generally are not recommended, although the exterior kind may be used over sound, previously-painted surfaces.

Before painting masonry, all dirt and dust should be removed by brushing and scrubbing with water. Wiping with turpentine or an odorless solvent will take off oil or grease. Metal objects imbedded in the walls or other surfaces should be primed with an anti-corrosive metal primer, and all cracks should be patched.

A wire brush is necessary for removing loose or peeling paint and will also take away any chalk particles.

The latex paints can be applied to wet or dry surfaces, the portland cement paints to wet surfaces only, the others to dry surfaces.

Portland cement paint comes as a powder in white and a variety of colors and penetrates the masonry. The powder is mixed with water just before use. Only enough mixture should be made which can be applied in a maximum of four hours. The walls must be thoroughly wetted and kept wet while the paint is scrubbed into the surface with a brush. While portland cement paint is often used as a sealer for cement block, it is not suitable for patios or other areas which will be walked on.

When it is desirable not to change the original color of the masonry, transparent silicone coatings are excellent. They perform their protective function by lining the pores of the material. No water can penetrate this barrier; and as it runs off, it takes surface dirt with it. Silicone paints should not be used until the surface has weathered for at least 30 days.

In painting an irregular surface, such as stucco, special long-bristled wall brushes are

Older Homes Aren't Always A Big Bargain

By Vivian Brown
AP Newsfeatures Writer

WHEN ONE buys an old house the temptation may be great to improve it. Sometimes it is bought with that idea in mind. The theory is that if you've gotten a good deal on the buying, you should invest a little money in renovations and repairs.

Plan wisely when you consider improvements. Landscaping is important, but it isn't a willy-nilly venture. Here is a reader's letter that illustrates that point:

"We bought an old house that had only a couple of maple trees and lacked good foliage around the house. We bought bushes, hedges, plants and succeeded only in spending a lot of money. Everything we have done looks wrong. Is there any publication available that will give us good advice about planning our grounds at a minimum of expense?"

May Be Obtained

Good looks on landscaping may be obtained at the public library and at book stores. Also, there are government publications available. It is a good idea to consult local nurserymen if there are big problems. It should be cheaper in the long run. Many nurseries offer the service free, if you purchase the initial plants from them. A trained eye can change the look of the old homestead and improve your good purchase, and a good nurseryman may suggest a long-range plan to fit your budget, suggesting the improvements that will help at once. He can also transplant bushes and

plants that need a better location.

Squander Other Ways

You can squander money in other ways when you purchase an old house. A favorite one, judging by many letters on the subject, is to decide the kitchen can be remade for little money. This letter is typical:

"We located an old Victorian house which was a great bargain as it has six bedrooms. We have five children. The kitchen was dark, dreary, dirty. The walls were cracked, fixtures were ancient. There were other problems but the kitchen was my main objection. My husband said we could afford to remodel the kitchen with what we saved on the purchase of the house. I agreed.

"We did everything wrong. We put in a new sink before we did anything else. The installation of it cost more than we anticipated. We put in a new refrigerator, and that was as far as we could go, except for painting the kitchen. It is good to have the new things, but now we are stuck with old cabinets, floors, doors and windows. What would you do next?"

A kitchen needs a plan, and even with a plan it is a big project. Once a plan is established, however, you can decide what to do first, and what you need and can afford after that. You can't put in a floor until you have the cabinets laid out. It's a good idea to decide whether other appliances — washer and dryer — will be put in the kitchen. If you know what you would like in the future in the way of appliances and flooring, contact a kitchen planner and get the plan with dimensions organized, and arrange to buy cabinets, appliances and whatever else you need over the years.

Anyone Can Build Bookcase

THANKS to a new building board made from compressed wood shavings, any one can now build sectional bookcases to almost any size required, at very little cost. Whether built along one wall, around a corner, or from floor to ceiling, construction has been so simplified anyone can do it by following the pattern offered below. To eliminate waste, a cutting chart shows how to lay out all parts to obtain maximum use of panelboard. Professional results are

assured since step by step directions explain where and when each is fastened in position. By cutting each part to size of pattern, then joining all parts exactly where pattern indicates, amateurs make like pros.

While the illustration above shows sections of bookcases, the same building procedure can be followed to cover an entire wall. The depths of the shelves can be made to suit end use. If you plan on building shelving for Hi-Fi, record storage, radio, television etc. the shelves can be cut to width required. If you plan on covering an entire wall, make the lower shelves wide, the upper shelves narrow. The panelboard required is readily available at lumber yards. Send 50c in coin, check or money order for Bookcase Pattern no. 42 to Name of Newspaper, P. O. Box 215, Pleasantville, N. Y. Send additional 35c for 64 page catalog illustrating over 300 other build it yourself projects. Please send 25c for First Class Mail.

16-Year-Old Slave

Dear Abby: I never thought I'd see the day when I'd write to a newspaper for advice, but here I am. Our problem is our 16-year-old son. He has become so addicted to cigarettes that if he doesn't have one he gets jittery and his hands shake.

We have explained the dangers of smoking and have had our doctor explain it to him. He says he knows all those things, but he can't stop now. We've taken away his privileges and punished him in every way possible, but it hasn't helped. He's gone without lunches to buy cigarettes, and if he has no money to buy

them, he'll beg one. Now what can we do?

PARENTAL FAILURES

Dear Parents: If a 16-year-old boy is to overcome the cigarette habit, he must do it the same way other cigarette slaves do. First, the boy himself must sincerely want to stop smoking. If he wants to badly enough, his own determination will create the inner strength it requires. Without it—all else is futile.

Dear Abby: I have been married for four months. A baby is on the way. My husband and I were not meant for each other and divorce is the only way out. Believe me, I am certain this marriage can't last for reasons I would rather not mention here.

My parents tell me that I shouldn't consider divorcing

my husband until after the baby is born. I am living with him now only for appearances, but I am definitely going to get rid of him as soon as I have this baby. What I want to know is, can I get my maiden name back?

MATTER OF TIME

Dear Matter: This is a matter for a lawyer. Under the circumstances, the court (or judge) usually tries to dissuade a mother from resuming her maiden name because it could reflect on the child. Think it over.

Dear Abby: The man I am going to marry has been married and divorced. I am 24 and he is 34. He has two daughters, 7 and 9, and his ex-wife uses them for all they are worth to keep in close touch with their Daddy.

She coached the girls to ask him if they could be flower girls at our wedding. When he suggested it, I hit the ceiling.

I feel that his daughters and their mother do not belong in the wedding party. Some of my friends think I am being small and narrow-minded. My fiancé says it is up to me. May I have your opinion?

BEA-WILDERED

Dear Bea-Wildered: I am in your corner. Your fiancé's chil-

dren do not belong in your wedding party. Furthermore, it is very poor taste for a discarded mate (and/or the children) to attend an "ex's" second wedding.

Confidential to Bill F.: If the nickel has no "mint mark" it is a counterfeit.

Dear Abby: I am a working girl who is engaged to be married soon. I am planning as nice a wedding and reception as I can afford. I asked two of my aunts if they would pour

tea and coffee at my wedding reception. They both refused.

One said, "Hire your own waitresses." The other said, "I would like to come to your reception as a guest, not to serve other people."

I always thought it was an honor to be asked to pour tea and coffee at a wedding reception. Or is it an insult?

BEWILDERED BRIDE

Dear Bewildered: It is an honor to be asked to "pour" at a wedding reception. Your aunts' ignorance is showing.

Yanks Topped 5-3 On Allison's Blast

WASHINGTON (AP) — Bob Allison crashed a two-run homer in the 10th inning Tuesday as Washington chopped down a three-run lead and beat New York 5-3.

The defeat, second in a row to the Senators, trimmed the Yankees' first-place margin over Cleveland to one game.

New York surged ahead in the

Robin Blanks Cincy On Four Hits

CINCINNATI (AP)—The old master Robin Roberts shut out the Cincinnati Redlegs 2-0 Tuesday night.

The Philadelphia right-hander limited the Redlegs to four hits, and in one stint — from the last out of the second inning through the eighth—retired 19 men in order.

Jerry Lynch led off the ninth with a single, but a double play and an easy grounder nailed down the victory.

Newcombe Hot
His opponent, Don Newcombe, another shrewd pitching veteran, went through the first four innings before yielding a hit.

The duel went scoreless for five innings. The Phils took eight hits from Newk, but only two runs.

Newcombe set down 12 men in a row before Pancho Herrera led off with a single in the fifth. But Herrera died on base and the next three batters were easy outs.

Cincinnati 000 000 000—0 4 0

Roberts and Dalrymple; Newcombe and Bailey. W—Roberts (5-7). L—Newcombe (3-6).

Orioles Rap Boston 9-4

BOSTON (AP) — Baltimore's whiz kids showed they are far from finished by shellacking the Red Sox 9-4 before a family night audience of 22,491 here at Fenway Park Tuesday night.

Chuck Estrada, right-handed rookie, limited the Sox to five hits as he racked up his ninth victory of the season only hours after being named to the American All-Star team.

Baltimore 030 231 000—9 14 0

Boston 000 020 002—4 5 1

Estrada and Triandos; Brewer, Willis (4) and Nixon. W—Estrada (9-4). L—Brewer (5-7).

Home runs — Boston, Wertz (8), Green (2).

Sears Smacks Trust

WAITING until the last three innings, Wyckoff-Sears teed off for nine runs to whip Monroe Security Trust 9-3 in a Stroudsburg Little League game last night.

Security Trust has as many hits as Wyckoff-Sears, six, but failed to bring its men in. The Security pitchers gave up a total of nine walks.

Wyckoff-Sears catcher Bill McAllister belted a triple and a double and the only extra base hits, two doubles, went to Torzillo and Weichel of Wyckoff's.

Eagles Ink Back

PHILADELPHIA (AP)—Veteran defensive back Tom Brookshire has signed for his sixth season with the Philadelphia Eagles, the National Football League club said Tuesday.

first inning when Roger Maris socked his 26th home run scoring Tony Kubek, who had singled. The Yankees stretched their lead to 3-0 in the fourth when Mickey Mantle scored a run without a hit.

Tie Score

Washington tied the score with single runs in the seventh, eighth and ninth innings. In the seventh, the run came on a walk to Allison and single by Jim Lemon and Billy Gardner.

Washington starter Pedro Ramos limited the Yankees to three hits before he left for a pinch hitter in the bottom of the ninth. Chuck Stobbs retired the next six New York batters.

Methodists Shade Bank In E-Burg

METHODISTS shaded National Bank 8-5 in a close East Stroudsburg Little League game Tuesday.

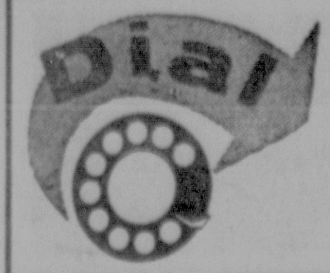

Yost, the Methodists first baseman, got the only extra base hit of the game, a double. The Methodist pitcher, Counterman, gave up eight walks, striking out four.

The four run third-inning for the Methodists put the cap on the game, helped by seven walks in three and two thirds innings by Bank pitcher Fitzmaurice.

PETER WYCKOFF of A. B. Wyckoff, Stroudsburg, Pa. (right), is congratulated by Dean Charles M. Edwards, Jr., of New York University's School of Retailing after completing the Top-Management Seminar conducted by the School and the National Retail Merchants Association. Twenty-five executives from the United States and several foreign countries took part in the third annual program of lectures and discussions at NYU's Washington Square Center in New York City. The theme of the seminar was "A Blueprint of Action for the Next Decade of Retailing."

Area Summer Resident Hemlock Church Speaker

NEWFOUNDLAND — Dr. D. Elton Trueblood, who spends his summers at Lake Paupac, Greentown, will speak at a special evening vespers service at Hemlock Grove Methodist Church at 8 p.m. on Sunday, July 10.

Dr. Trueblood has found the quiet serenity of the Poconos to be an inspiration in his daily writing. He is the author of 18 books, the latest of which is "Confronting Christ."

THEY'LL DO IT EVERY TIME

Eastburg Man Stationed At Ft. Dix

CHESTER L. CRAMER, 23, of East Stroudsburg, arrived at Fort Dix, N.J., recently and has been assigned to "A" Company, Fourth Training Regiment for eight weeks of basic training.

Cramer is married to the former Patricia Muffley of 223 S. Crystal St., East Stroudsburg.

Prior to enlisting, Cramer was employed by the Pennsylvania Department of Highways, Monroe County.

Following his eight-week training, a two-week leave will be granted before given further assignment.

By JIMMY HATLO

Mt. Bethel Delegation Plan Meet

MT. BETHEL — A delegation made up mostly of members of Upper Mount Bethel Taxpayers' Assn., will meet with the deputy attorney general on July 13 in Harrisburg on the group's charges of salary splitting among the township's school board members.

The invitation was made in correspondence received from John D. Killian III, a deputy attorney general attached to the Pennsylvania Department of Public Instruction.

The letter was received by Mrs. Ella Vannatta, chairman of the association, and stated that: "we should confer on all aspects of this matter."

Killian scheduled a conference for 1:30 p.m., and told Mrs. Vannatta that she may "feel free to extend an invitation to all persons whom you feel might be helpful in the discussion, including the district attorney of your county."

The association has charged that \$750 of the \$1,500 annual salary of the board treasurer is divided equally among the three non-paid members of the board.

The association feels that if found guilty of the above indiscretion these men should be compelled to return the monies and be removed from office.

Killian and Northampton County Dist. Atty. Andrew L. Herster Jr., told the taxpayers group earlier that while the fund division practice is illegal, there is no criminal penalty provided for it.

Herster advised the association that a taxpayers bill could be brought through the courts to enjoin the board from continuing the practice.

Killian said the introduction of natural gas will result in substantial savings in fuel costs.

The Jim Thorpe Gas Co. proposed a \$14,318 reduction for its 810 customers and the Lehigh Gas Co. said it would cut the bills of 538 customers by \$13,718 per year.

HARRISBURG (AP)—Two Carbon County gas companies Tuesday proposed rate reductions totaling \$28,036 to go into effect when they convert from manufactured to natural gas service on Sept. 1.

The companies said the introduction of natural gas will result in substantial savings in fuel costs.

The Jim Thorpe Gas Co. proposed a \$14,318 reduction for its 810 customers and the Lehigh Gas Co. said it would cut the bills of 538 customers by \$13,718 per year.

Consolidating Certificates

By William A. Doyle

Q. I have accumulated about a dozen stock certificates in the same stock which I started buying in 1946. Can I have these consolidated into one or two certificates? What date would appear on the new certificates? If I sell some or all of the shares at some future date, how will I be able to distinguish the shares sold for Federal capital-gains tax purposes?

A. You can have your batch of stock certificates consolidated into two certificates with a minimum of effort. Present them (in person or by mail) to the transfer agent for the stock. The name of the transfer agent appears on the certificates.

In an accompanying letter, instruct the transfer agent to issue one certificate for 100 shares and another for 18 shares, registered in the name (your name) of the present owner.

Don't even sign the certificates. They will be safer in the mails that way. And it will probably make you happy to know that you most likely won't have to pay any fee. In most cases such as this, the company whose stock is involved picks up the tab.

The new certificates will be dated on the day they are issued. That date, as has been explained here before, has relation to the date you purchased

the shares.

If you sell some of the shares you can identify those shares according to the date on which you actually purchased the shares.

William A. Doyle stress once more that everybody should always keep those confirmation slips.

Q. Some time ago, thinking that I would sell some stock I own, I signed the certificate on the back. Now, I am not going to sell the stock. How can I have my signature removed from the certificate?

A. The easiest way would be to present the certificate to the transfer agent. Give instructions that a new certificate be issued. Because the certificate has been signed, be careful. If you can't get to the office of the transfer agent yourself, at least use registered mail. Better yet, have your broker or bank handle the details for you.

Q. When companies pay dividends to their stockholders, do the companies report to the In-

ternal Revenue Service the amount paid to each stockholder?

A. Indeed they do. But nobody seems to be quite sure what the revenue agent does with all that information after they get it.

This chore is taken care of by the dividend disbursing agent for the company. That's usually the transfer agent.

So far, the dividend disbursing agents are not required to withhold income taxes on dividends paid. A move in that direction was defeated in Congress a couple of weeks ago.

(Mr. Doyle will answer only representative letters of general interest in his column. He cannot answer phone queries.)

Nehru Inspects Defense Regions

SRINAGAR, Kashmir (AP)—Prime Minister Nehru flew to Ladakh yesterday to inspect defense installations in the region where Red China holds about 12,000 square miles of territory claimed by India.

In a brief speech to a welcoming crowd of 1,000 at Ladakh airport, he reiterated India's determination "to defend our country with all our might. New dangers do not frighten us."

Two Sailors Are Killed

WOODBURY, N.J. (AP)—Two 19-year-old sailors were killed early Tuesday when the car in which they were riding smashed into the rear of a parked truck.

Killed were Robert Bosley, of Vintondale, Pa., and Raymond Simpson, Douglasville, Ga.

The two victims were en route to the Philadelphia Naval Base after spending the July 4th weekend in Georgia. Injured in the mishap were John Fennell, Glenville, Ga., the driver, and Joseph Kovacs, Kathleen, Ga., both 19.
